ALL EXHIBITIONS ON ONE PLATFORM

The HUNGEXPO Application has been launched, which helps visitors to register, to buy and manage tickets and get information on the spot at all our own events. It will provide our exhibitors with an easy-to-use, always-on interface for online administration.

DOWNLOAD THE HUNGEXPO APP NOW!

- have the information with you!

Dear Exhibitors and Visitors,

When reading these lines, you probably have the same kind of thoughts swirling around in your head as we do. Like two old friends who are happy to meet again after one and a half years, but they still have the hardships of the past months on their minds. We still don't know the exact measure of the losses we suffered: in Hungary alone, the pandemic affected at least five thousand companies and over a hundred thousand people in the event organization industry. However, it also means we stayed on our feet because, just like you, we always look to the future even in the hardest of times.

Although we have been unable to organize exhibitions and professional conferences in the traditional sense for an unusually long time, these nearly two years have not passed in vain at all. We have learnt and grown: not just us here at HUNGEXPO, but the entire exhibition industry. We have learnt to adapt to something we've never encountered before. We have acquired new skills; we developed our virtual exhibitions further and we did our best to minimize risks through social distancing, disinfection and touch-free access control. All these things can be useful in the future as well. And most importantly: we haven't lost contact with our partners.

In the meantime, we have completed one of the most significant upgrades in decades. HUNGEXPO has no match in Hungary as a modern event centre and complex service system. HUNGEXPO has been renewed completely, from audiovisual services to catering and the modernization of the existing pavilions. We are launching the upcoming period with brand new multi-functional pavilions, a world-class conference centre, unrivalled environment and a unique event venue with a capacity to host tens of thousands of people at the same time.

This pandemic is likely to stay with us for a while, but we are prepared, we have trust in science and we have trust in ourselves. We have trust in you, our exhibitors and visitors that you, despite all the difficulties, will continue networking and building contacts which is a vital part of any business. What could be a better ground for this process than the renewed HUNGEXPO? Our job now is to continue building the trust we gained with our partners.

Come with us to meet the challenges of 2022, too! We hope we will have plenty of opportunities to prove we are worthy of your trust.

A handwritten signature in blue ink, appearing to read 'Gábor Ganczer'.

Gábor Ganczer
CEO, HUNGEXPO Ltd.

THEMES

- Agricultural machines, equipment and developments
- Animal husbandry devices and developments
- Agricultural developments
- Forestry and forestry machinery
- Seeds and other propagation materials
- Chemical products
- Agricultural electronics, measurement technology, diagnostics, automation

Agri-culture is here.

AGROMashEXPO and AgrárgépShow together form Hungary's most prestigious and largest agricultural professional exhibition. For the first time ever, the 2022 event will be held in a hybrid format welcoming visitors in the physical as well as the virtual space. The traditional exhibition will showcase nearly the entire spectrum of Hungary's machine industry in Hungexpo's renovated and brand new pavilions.

Besides the market-leading companies and the biggest distributed international brands, the event will again feature all the key domestic machine manufacturing operators and place great emphasis on input (seeds and other propagating materials, pesticides, fertilizers, and pest relief substances), logistics, agricultural electronics, measuring technology and automation as well as a viticulture, viniculture and garden management. As usual, the exhibition will be accompanied by a rich conference programme.

Nature is close by.

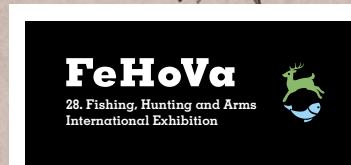

The Carpathian Basin's most prominent fishing, hunting and arms event will take place for the 28th time in 2022.

FeHoVa is the region's most significant hunting exhibition and the greatest Hungarian event for fishing shows. In addition to the professional demonstrations and the usual recurring events, visitors will also be treated to a number of popular attractions in 2022. The event will feature Hungary's top hunters, who will be sharing their experiences and presenting their special trophies while visitors can also meet the top angling champions of the country, who will share tips and tricks with their audience.

Simultaneous events:

- IX. FeHoVa – MEOESZ International Dog Show
- STIHL competition and demonstration
- 3rd FeHoVa International Open Taxidermy Championship

17-20 February 2022

www.fehova.hu

fehova@hungexpo.hu

- Matchfishing
- Angler garments, supplementary equipment, clothing
- Fishing tourism
- Angling associations, organizations

3-6 March 2022

www.boatshow.hu

boatshow@hungexpo.hu

THEMES

- Sail, motor and electric boats
- Equipment and accessories
- Ship-building materials, paints, varnishes
- Water sports clothing
- Yacht charter, boat rental
- Ports and harbor services
- Boat insurance services, boat leasing
- Training services, courses

There is endless freedom.

2022 will see doors opening at the 30th Budapest Boat Show, which over the last three decades has not only become the biggest landlocked harbour in Hungary and the season-opening event of boating and water sports, but also one of the most significant domestic boating gatherings. As usual, the exhibition will showcase the entire spectrum of Hungary's boating supply along with last year's best innovations and the offers of companies dealing with water sports and the related equipment and services.

The main theme of Budapest Boat Show 2022 will be the Tokyo Olympic Games which were held a year later than planned. The guest of honour will be Lake Tisza, so visitors will be welcomed by related professional and general programmes on stage and in pool as well. For yet another year, the exhibition will be hosted concurrently with the Travel Exhibition.

- Windsurf, surf, kitesurf and related equipment
- Jet-ski, water ski, wakeboard and related equipment
- Diving equipment, accessories, clothing
- Authorities, associations, organisations, journals
- Luxury products and services, nautical gifts

There is an active weekend.

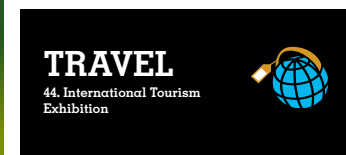

Hungary's number one tourism fair, Travel will await professionals and travel enthusiasts for the 44th time in 2022. In the current situation, the event will have an extremely important role in relaunching Hungarian and international tourism and reviving the entire industry, since it will provide an unrivalled forum for the stakeholders of the Hungarian tourism sector early in the year to share their experience and best practices, make deals and, last but not least, meet the public who desire to travel.

Travel exhibition always focuses on supporting the Hungarian market, so the 2022 event is going to lay great emphasis on domestic destinations, travels and service providers who will meet a target group of frequent travellers with disposable income to spend on active recreation.

Thanks to Hungexpo's venue development, the 2022 exhibition will welcome visitors in the renewed Hall A with such programmes as the Caravan Salon, the Unwalked Paths Festival or Africa Expo Budapest. In addition, Budapest Boat Show, Hungary's greatest boat exhibition will be held as Travel's concurrent event again.

- Kitchen equipment & supplies
- Coffee products & equipment

Sirha Budapest

Ever since 2014, Sirha Budapest has been Central and Eastern Europe's most significant professional exhibition for food industry, HoReCa, bakery, confectionery, packaging industry and gastronomy. The event in 2022 will play an exceptionally important part in restarting the affected sectors, since the market players will meet here for the first time after the pandemic-ridden eighteen months to share their experiences and best practices. To support them in their efforts, the exhibition will be held in a hybrid format for the first time, which means that exhibitors can meet visitors at the conventional physical event as well as in the virtual space.

However, Sirha Budapest's next edition will be special for another reason, as well: After 2016, the exhibition will host the Bocuse d'Or European Final again, where our continent's best chefs will compete for a qualification to the Grand Final. The event will again feature the Mass Catering Championship as well as the Sirha Budapest Dessert Competition. As a new programme, VinCE Budapest will be organized, but the usual business meetings and conference programmes will return as well.

Special Trade Partner of the exhibition is METRO and Special Media Partner is Trade magazine.

- Furniture, decoration, tableware, textiles
- Hotel equipment & supplies
- Technologies, hygiene and cleaning products, services
- Budatranspack, packaging technology, logistics

The place where plans become reality.

The CONSTRUMA exhibition bouquet is Hungary's prominent professional forum that covers the entire spectrum of home-making from construction and building engineering to interior design and home decoration. Thanks to its complexity, it is unique in the Central Eastern European region.

The 2022 exhibition will be renewed in terms of professional content and conference programme as well. With its renovated and brand new pavilions, the venue area offers a worthy, premium environment for the Central Eastern European region's leading construction and homemaking exhibition complex.

Organized for the 40th time, CONSTRUMA will yet again serve as the summit of Hungary's construction industry stakeholders, offering professional programmes to find the answer for future challenges facing the building industry. The latest technology is guaranteed by the presence of the domestic and international brands of manufacturers. The exhibition is accompanied by a wide-ranging professional support and a rich conference programme which features internationally relevant events and a large-scale professional meeting of construction industry stakeholders this year. The 2022 exhibition will be held in a hybrid format which allows you to showcase your products and services at a physical stand as well as in the virtual sphere in order to find more contact, partner.

- Construction industry, construction materials, machinery
- Portals, gates, shading technology, glass industry (frontal)
- Roofing, tinning industry (dach-tech)
- Water, heat, sound insulation, facade construction (inter-isola)

THEMES

- Kitchen technology a-z
- Large household appliances
- Furniture
- Furniture industry and interior design raw materials
- Bathroom & wellness
- Fireplaces, stoves
- Stairs, railings

The home is you.

A stable part of the CONSTRUMA exhibition bouquet. The exhibition features everything from kitchen technology and bathrooms to living rooms and everything else necessary for creating a home interior. Nearly half of the visitors already show interest in the subject. We wish to present the 2022 exhibition in a more thematized arrangement. The kitchen and the bathroom are the most accented areas in any home, and this fact is reflected in the visitor interest as well. Consequently, both areas will enjoy a more pronounced appearance and communication in the 10th HOMEDesign exhibition to be held in 2022.

Showcasing all areas of interior design and home decoration, the event has always laid great emphasis on presenting the latest Hungarian design trends, which will be featured in the works of local designers presented at the Hungarian Design stand. From the beginning, the professional segment of the exhibition has been reinforced by the conference of Hungarian Wood and Furniture Industry Union FABUNIO, along with professional events, demonstrations and the project coordinated by the National Association of Interior Designers presenting new professional trends in the form of interiors.

- Coatings
- Design accessories, ornaments
- Home textile
- Home illumination
- Entertaining electronics
- Interior design planning, advice
- Services

Here is technology for the metamorphosis.

The MACH-TECH is celebrating its 15th anniversary! The 15th MACH-TECH International Trade Exhibition for Machine Manufacturing and Welding Technology and the 9th INDUSTRY DAYS International Industrial Trade Exhibition will return to the HUNGEXPO Budapest Congress and Exhibition Center on 10-13 May 2022. The exhibitions represent Hungary's greatest and most significant industrial business event featuring all the latest products and services at the same time and place. In 2022, the professional exhibitions which offer complex solutions for small, mid-size and large enterprises will be accompanied by a rich conference schedule in cooperation with state and professional partners. In addition to the exhibitions carried out in the conventional physical space, exhibitors and visitors can also join the events online, as we extend the on-site exhibition with a virtual module.

Simultaneous event (for the first time):

AUTOMOTIVE HUNGARY 10th International Trade Exhibition for Automotive Industry Suppliers

MACH-TECH

- Metalworking machines and machine construction components
- Factory automation
- Binding technology equipment and tools
- Robotics
- Heat treatment equipment and coating machines
- Surface treatment and surface protection

THEMES

10-13 May 2022

There is the way to the future.

Home is full of life.

7-9 October 2022

Celebrating its 10th jubilee, AUTOMOTIVE HUNGARY, the International Trade Exhibition for Automotive Industry Suppliers will be held at a new time in May 2022.

A decade ago, we created the exhibition as a meeting forum for the stakeholders of the Hungarian and regional automotive industry: car manufacturers, suppliers as well as small and medium enterprises.

In order to respond to the increasing interest in these events over the years, domestic car factories will be joined by feature suppliers, part manufacturers, the representatives of the manufacturing process and supplier services, automotive industry units and systems, manufacturers and distributors of automotive components and systems, SI companies, industry-related service providers and the representatives of the educational industry tied to the automotive industry. The event presents the sector-specific matrix for the automotive industry that includes various elements tied to electronics, IT, software, machinery, plastic industry, glass industry, chemical industry and the composite industry. The exhibition enjoys wide-ranging professional and state support, making it possible to organize conferences, supplier forums and the TECHTOGETHER student competition. In addition to the exhibition carried out in the conventional physical space, exhibitors and visitors can also join the event online, as we extend the on-site exhibition with a virtual module.

The HOME Design Autumn Homemaking Exhibition and Fair is focused on the interior of homes as the autumn event presents a wide range of quality and design products, activities, counselling and demonstrations. The exhibition basically offers a forum for discovering autumn innovations for the general audience interested in interior design as well as those who wish to reconfigure their homes. Additionally, the exhibition provides events for professional visitors (interior designers and decorators); conferences, workshops and demonstrations. The exhibition's key professional partner is Hungarian Wood and Furniture Industry Union FABUNIO which, beyond professional meetings, contributes to the range of features on offer with a number of special demonstrations. As the other key partner, the National Association of Interior Designers will enrich the premium event with consulting services, professional discussions and presentations. The exhibition also provides an opportunity for a wider range of presentations: the range of exhibitors at the event include young designers and fabric designers.

Simultaneous exhibitions:

- MACH-TECH International Trade Exhibition for Machine Manufacturing and Welding Technology
- INDUSTRY DAYS International Industrial Trade Exhibition
